SERVICES WE OFFER

Consistent Quality

We assure reliability and consistency, meeting and exceeding your expectations.

Complimentary Site Measures: For entire house lot packages involving trim and doors, we provide free on-site measurement services to guarantee a precise fit and customer satisfaction.

DELIVERY SERVICES WE OFFER

Flexible Delivery Management

We offer tailored delivery options, including separation of the order by floor, product type, or any method that aligns with your specific needs as long as this was stated prior to ordering.

Flat Rate Delivery Charge

A standard delivery charge will be applied for all on-site deliveries within the GTA. For orders outside of the GTA, additional charges will apply.

Delivery Access and Safety

Customers are solely responsible for ensuring adequate space and obstacle-free access at the delivery site. Our drivers are only responsible for deliveries at ground level. It is recommended that you have the appropriate staff to offload. Should our drivers deem the site unsafe, Royal Door & Trim Supplies Ltd. reserves the right to postpone the delivery and the customer will in turn be responsible to pay re-delivery charges.

Condo Delivery

All condo deliveries will be delivered to the lobby or loading area. Specific maximum sizes will need to be specified before time of delivery. Under no circumstances will we deliver inside a multi-level condo unit. It's up to the customer to book service elevator in advance and provide scheduled time prior to delivery.

OUR COMMITMENT TO QUALITY

Payment and Credit Terms

A non-refundable deposit is mandatory for all non-trade account orders. Payment options include Debit, Visa, and MasterCard.

Credit Accounts

For credit account setup kindly reach out to your sales rep. All orders (both in-stock and custom) are COD until credit approval is granted. These accounts must be paid by EFT or cheque only. Credit can be terminated at any time for any reason with sole discretion of Royal Door & Trim Supplies Ltd.

Ownership of Products

Please note that all products, especially custom wood mouldings, remain the property of Royal Door & Trim Supplies Ltd. until the order is paid in full.

Moulding Lengths

Our mouldings are only available in specific standard lengths. We do not offer random lengths.

Catalogue Information

We strive for accuracy and completeness in our catalogue and are not liable for any costs or issues resulting from catalogue errors or omissions. Product specifications may change without notice.

Product Specification Variability: The natural characteristics of wood, including color and grain variations are inherent and not considered defects. We provide stock profile samples upon request to assist in your selection process.

Your satisfaction and convenience is our top priority at Royal Door & Trim Supplies Ltd. We are committed to providing high-quality products and services tailored to your unique needs. For any further information or assistance, please reach out to our dedicated customer service team, or assigned sales rep.

Finishing & Handling Instructions

Notes

Finishing & Handling Instructions

Doors should not be considered ready for painting when initially received.

Handling

1. Doors should be stored flat on a level surface in a dry and well-ventilated building.
2. Doors should never be stored directly on concrete or leaned against walls.
3. Doors should not be subjected to extreme or rapid changes in heat or humidity.
4. Allow doors to acclimate to the conditions before hanging.
5. Ensure that the atmosphere is free from excessive humidity, running a dehumidifier in the home to extract excess moisture in the atmosphere while the doors are still unfinished.

Preparation for Finishing

1. Lightly sand entire door using 150-220 grit sandpaper to remove all handling marks and any undesirable blemishes.
 2. After sanding, wipe entire door with a clean cloth to remove all dust or foreign material.
- Note: Do not use caustic or abrasive cleaners,
1. Doors should be finished within 48 hours of delivery to job site.
 2. Good quality water-based acrylic latex or alkyd enamel paint recommended.
 3. Always consult your paint supplier for recommendations on what should be used for a solid wood product.
 4. All 6 surfaces (top, bottom, sides) must be sealed with primer and paint.
 5. All 6 surfaces (top, bottom, sides) must be sealed for stain grade doors, must be sealed with stain or varnish.
 6. Both sides and all 4 edges must be painted with a minimum of 1 coat of primer and 2 top coats of paint.

It is the finisher's responsibility to protect glass prior to and during finishing.

Doors should be tested for compatibility with the finishing system. Paint a small area of the door to ensure desired look. If the desired look is not achieved, do not proceed, contact your paint manufacturer for assistance.

If the above instructions are not adhered to, any warranty will be voided.

Please visit our warranty page on our website for more details.
